

SpeedPod Item Checklist

1. List Of Items

SpeedPod Kit contains the SpeedPod gauge with accessories to take full advantage of the technology.

Item Number	Article ID	Article Name	Article Image
1	21400 / 21402	SpeedPod Flex or SpeedPod Pro*	
2	21403	Power Station	
3	10669	Wall Mount Adapter 110-240VAC to 5VDC 6W	
4	10668	USB A to C 1 Meter / 3 ft.	
5	10692	Wrist Strap	
6	10632	Rugged Transport Case with Custom Foam Insert	

*SpeedPod Flex and Pro come pre-installed with

- 1 non-removable 3.7V battery
- 1 removable 3.7V battery
- 1 non-removable 16GB SD Card
- 1 protective cover
- 1 MyPod program and license on SD card

2. Identification: Serial Number

The serial number of the device can be found on the case label, on the bottom of the SpeedPod itself. Lifting up the protective cover will expose the identification sticker with the serial number.

3. Content Verification

This list can be used as a reference to match items from the packing slip with the actual content of the shipping case. If any items are found to be missing or if the package is found to have been opened prior to delivery, please contact the manufacturer immediately.

4. Device Activation: Deep Sleep

Upon receiving the device, it is most likely in Deep Sleep Mode to save battery life. The device can be activated by connecting it to a computer using the USB or placing it on the Power Station. Note that the USB-C connection on the device is located under the grey suction cup handle.

In general, it is recommended that a device is put in Deep Sleep Mode for long transport. The manual has all the instructions for this procedure.

5. Contact Information

For any concerns regarding the quality of the shipping or the product, please contact **support@ezmetrology.com** and include serial number, pictures, and observations that need to be addressed.

6. Disclaimer

All items listed in the shipping checklist are to be provided to the customer by the manufacturer; however, the manufacturer is not responsible for damage, loss, or theft of any item during transit or shipment. The shipment is defined as the moment the package has left the facility of the manufacturer until the arrival at the customer site. The manufacturer is not liable for any damage due to mishandling by the customer. In the interest of providing support for any situation, please report any missing or damaged items to the manufacturer upon receiving the package.
